Abstract

we propose a novel self-attention mechanism that relates all positions

A: Confused

1. Introduction

achieves state-of-the-art on WMT 2014 English-to-German

A: Key pt

multi-head attention allows the model to jointly attend

B: Got it ✓

2. Model Architecture

the encoder maps an input sequence to a continuous representation z

C: Why?

transformer follows an encoder-decoder structure using stacked

B: Interesting
